**I prodotti contraddistinti da questo marchio sono prodotti con pellami di primissima qualità, che conferiscono al prodotto eccellenti caratteristiche di resistenza, e morbidezza.**

All products marked with this sign are produced with first quality leather, which gives the products excellent properties of softness, comfort, and durability.

Les produits signalés avec cette étiquette sont fabriqués avec des cuirs de première qualité qui garantissent aux produits des excellentes caractéristiques de durabilité et souplesse.

**Tutte le nostre calzature sono prodotte in Europa, all'interno di stabilimenti di proprietà e controllati direttamente dall'azienda.**

All our footwear products are proudly made in the EU, inside facilities owned and controlled directly by the owner's family.

Toutes nos chaussures sont produites en Europe dans des entreprises de propriété contrôlées directement par Garsport.

**Vibram è leader mondiale nella produzione e nella commercializzazione di soles in gomma ad alte prestazioni destinate ai mercati dello sport, dell'outdoor e del tempo libero. Le severe prove sul campo eseguite dal Vibram Tester Team garantiscono l'idoneità e la funzionalità delle soluzioni adottate sulle soles in un'ampia gamma di situazioni di camminata, di terreni, di applicazioni in ambito lavorativo e sportivo.**

Vibram is the world leader in high performance rubber soles, targeted to the outdoor, work, recreation, fashion, repair and orthopedic markets. Each new Vibram product is developed using only the latest designs and the best compounds for its specific use. New soles are always produced with three objectives: to guarantee the best performance, the maximum level of comfort and quality durability.

Vibram est le leader mondial pour la production et commercialisation de semelles en caoutchouc pour le marché du sport, de l'outdoor et du temps libre. Des tests très sévères sont faits sur ces semelles par le Vibram Tester Team qui garantissent la fonctionnalité et la bonne construction des semelles pour un large usage: randonnées, marches, travail et sport.

**La membrana tecnica utilizzata nei prodotti riportanti questi simboli vanta proprietà di impermeabilità all'acqua e di traspirabilità. Grazie a queste proprietà tecniche, il piede rimane asciutto anche in condizioni estreme di utilizzo, in un microclima interno ottimale.**

The technical membrane used in these products is represented by these symbols, featuring water resistant and breathable properties. Thanks to these features, feet remain dry even under extreme conditions of use, within an optimal inner microclimate.

La membrane technique utilisée dans les produits signalés avec cette étiquette est imperméable et Transpirante. Grâce à ces propriétés techniques, le pied reste sec dans des conditions extrêmes d'usage, dans un microclimat interne optimal.

**Presente nelle calzature prodotte con membrana Gartex: una speciale membrana resistente all'acqua che protegge anche dalla neve e dal freddo.**

These products feature a Gartex lining: a specially developed water resistant membrane that also protects your feet from snow and cold weather.

Cette étiquette est présente dans les articles avec membrane Gartex: c'est une membrane résistante à l'eau qui protège aussi de la neige et du froid.

**La suola POLY2 rappresenta un sistema tecnologico di iniezione in poliuretano a doppia densità della suola direttamente sulla tomaia. Grazie alla doppia densità dei polimeri, si evita qualsiasi tipo di scollatura, e si garantiscono leggerezza, resistenza all'abrasione e comfort, unite ad un'eccellente aderenza su tutte le superfici.**

The POLY2 outsole represents a technologic system of double polyurethane injection of the outsole, directly to the upper. Thanks to the polymer's double density, any unstuck process of the outsole, and lightness, abrasion resistance and comfort are granted, combined with an absolute grip on any kind of surface.

La semelle POLY2 est un système technologique d'injection à double densité de la semelle directement sur l'empeigne. Grâce à la double densité des polyuréthanes, tout type de décollement est évité et nous garantissons la légèreté, la résistance à l'abrasion et le confort et aussi une adhérence excellente sur toutes les surfaces.

**Perwanger Leather. Conceria che dal 1780 produce scamosciati tecnici idrorepellenti e traspiranti, esclusivamente per il mondo outdoor e sicurezza. Perwanger Leather.**

Tannery that since 1780 produces technical water resistant and breathable suede, exclusively for the outdoor world and safety shoes. Perwanger Cuir.

Tannerie qui produit depuis 1780 un suede technique hydrofuge et respirant, exclusivement pour le monde de la montagne et les chaussures de sécurité.

## ALPINE

**Una nuova gamma di prodotti estremamente tecnica e dall'elevato standard qualitativo, pensata per tutti gli appassionati della montagna, dall'avvicinamento al mountaineering. Il nuovo modello Mountain Tech High è adattabile al ramponne semi-automatico, ed è il risultato di un'approfondita ricerca che ha come obiettivo quello di sviluppare un prodotto tecnico, preciso e dal peso contenuto dedicato alle attività di arrampicata tecnica su roccia e misto. I modelli a taglio mid e basso, indicati per l'avvicinamento tecnico alla montagna, ma anche per attività quali trekking e backpacking, sono leggeri e confortevoli, ed offrono un buon livello di protezione unito ad un look sportivo ed accattivante.**

A new extremely technical range of products with high quality standards, developed specifically for all the enthusiasts of mountaineering and technical mountain approach activities. The new Mountain Tech High can be adapted to the semi-automatic crampon usage, and it's the result of a research aimed to get the best technical and performing product, lightweight and suitable for all the technical climbing activities on rocks and mixed surfaces. The other mid and low cut styles, indicated for technical mountain approach, but also for trekking and backpacking, are lightweight and comfortable as well, and offer a very good level of protection, combined with an attractive and sporty look.

Une nouvelle gamme de produits extrêmement technique et de très haute qualité, pensée pour les passionnés de montagne, de approach et de mountaineering. Le nouveau modèle Mountain Tech high avec possibilité d'ajout de rampon semi automatique, est le résultat d'une recherche approfondie qui a comme objectif le développement d'un produit technique, précis et avec un poids contenu dédié aux escalades sur rochers au mixtes. Les modèles mid et low pour l'approach technique à la montagne mais aussi pour le simple trekking et backpacking, sont légers et confortables et offrent un bon niveau de protection et un look sportif et attractif.

## MOUNTAINEER

**Linea studiata appositamente per le attività più tecniche in montagna, come il mountain climbing o altre attività in quota dove sia richiesto l'utilizzo del ramponne semi-automatico. Massimo comfort e resistenza in ogni tipo di condizione climatica.**

Technical line at the top of the range, specifically developed for the high mountain activities, such as Mountain Climbing, or other technical activities where the use of the semi-automatic crampon is needed. Maximum comfort and performance in any weather condition.

Ligne étudiée pour les activités de montagne les plus techniques, comme le mountain climbing ou autres activités qui demandent l'usage de rampons semi-automatiques. Le maximum de confort et de résistance pour tout type de condition climatique.

## BACKPACKING

**Per coloro che camminano in quota e in condizioni difficili, quali neve, ghiaccio o superfici rocciose. Per camminare con piacere anche nei luoghi più impervi.**

For those who like walking at high altitudes and in difficult conditions including rain, snow or rocky surfaces. Enjoy walking even on the most impervious tracks!

Pour ceux qui marchent dans des conditions difficiles en haute montagne, dans la neige, sur la glace ou sur des superficies rocheuses. Pour marcher avec plaisir dans les lieux les plus inaccessibles.

## TREKKING HIKING

**Dedicata a coloro che camminano in montagna, anche su superfici impegnative. Scarpe solide e stabili senza compromettere leggerezza e comfort che garantiscono la massima affidabilità.**

Dedicated to mountain hikers, also on challenging terrain. Hard-wearing, stable boots that do not compromise in terms of lightness and comfort.

Dédié à ceux qui marchent en montagne, même sur des superficies difficiles. Chaussures solides et stables avec une excellente légèreté et un très bon confort, qui garantissent le maximum de fiabilité.

## FAST HIKING - FREE TIME

**Ispirate al mondo del running, queste scarpe sono strutturate con materiali tecnici e un design attuale, che le rende leggere, versatili ed adatte anche per il tempo libero. Le varie proposte colore conferiscono a questa nuova linea un look urbano ed accattivante.**

Inspired by the world of running, these shoes are structured with technical materials and a modern design that makes them light, versatile and also suitable for leisure. The various colour proposals give this new line a urban and captivating look.

Inspirées au monde du running, ces chaussures sont structurées avec des matériaux techniques et un design actuel, qui les rendent légères, versatiles, et pratiques même pour le temps libre. Les différentes disponibilités de coloris donnent un ton jeune et urbain à cette collection.

## APPROACH - HIKING LOW

**Decisamente adatta ad un uso polivalente, questa calzatura è dotata di requisiti tecnici in grado di rendere l'avvicinamento alla montagna comodo e sicuro.**

Very suitable for a versatile use, this shoe has technical requirements that grant a comfortable and sure approach to the mountains.

Crée pour un usage polyvalent, ce modèle très technique garantie un rapprochement à la montagne sûr et confortable.

## MULTIFUNCTION

**Scarpe basse e robuste, adatte per viaggiare e per un uso quotidiano. I materiali attentamente selezionati, garantiscono un ottimo comfort e protezione del piede, rendendo questi articoli ottimali per ogni tipo di attività svolta all'aperto.**

Low cut and supportive shoes, suitable for travelling and for daily use. All the materials, which are carefully selected, guarantee a very good comfort and protection of the foot, making this article optimal for every outdoor activity.

Chaussures basses et robustes, pour voyager et aussi pour un usage quotidien. Les matériaux ont été attentivement choisis pour garantir un confort optimal et la protection du pied. Ces modèles peuvent être utilisés pour tout type d'activité à l'extérieur.

## JUNIOR - KIDS

**Scarponcino leggero adatto ai più piccoli, combinazione perfetta tra comfort e stabilità.**

Lightweight children boots, perfect combination between comfort and stability.

Botines légères pour les plus petits, une parfaite combinaison entre confort et stabilité.

# LA NOSTRA STORIA

Garsport nasce nel **1972** per volontà dei propri fondatori, Diego Garbuio e Gabriella Favotto, appassionati artigiani che decisero di avviare una piccola azienda di **produzione per calzature da neve** e per il freddo. La continua passione per la produzione e la ricerca di nuovi materiali, nonché l'accrescere dell'esperienza acquisita nelle diverse fasi dei processi produttivi, hanno portato Garsport a diversificare le proprie produzioni, introducendo nuove linee di prodotto rivolte al trekking, al **tempo libero**, ed alla **sicurezza** (safety), e realizzando questi prodotti per alcuni tra i più importanti leader del mercato. Grazie ad un design dal **gusto italiano**, sempre attento alle esigenze dettate dal mercato e alle diverse richieste in termini di contenuti tecnici dei propri prodotti, l'azienda ha intrapreso la produzione delle calzature anche con marchio proprio; da qui l'introduzione di nuove linee a marchio "Garsport" per trekking e sicurezza, comode e versatili, studiate per le più diverse esigenze e tipologie di utilizzo.

La qualità del prodotto, che ricopre un'importanza fondamentale, rappresenta un principio cardine della filosofia Garsport: la continua ricerca di nuovi materiali e l'attento controllo sui processi produttivi, che avviene ogni giorno negli stabilimenti di proprietà aziendale, garantiscono standard qualitativi eccellenti, ed una indiscussa sicurezza e durata nel tempo delle calzature.

La professionalità e la serietà dell'azienda nel servizio offerto ai clienti, uniti ad una sempre maggiore presenza nel mercato, hanno portato Garsport a riscontrare l'interesse da parte del **mercato locale ed internazionale**, oltre che dei consumatori più esigenti e selettivi, attenti nei dettagli e nella ricerca del miglior compromesso tra qualità e prezzo.

## OUR STORY

Garsport was established in 1972, founded by Mr. Diego Garbuio and Mrs. Gabriella Favotto, two passionate craftsmen who decided to set up a small footwear production company for snow and cold winter shoes and boots. A continuous devotion to quality production and research into new materials combined with constantly increasing knowledge on production techniques has seen Garsport diversifying their production and has seen them move into new product areas aimed at trekking, free time and safety. **Garsport now produce these items for some of the most important leading brands worldwide.**

Thanks to Italian design, always considering market needs and the different technical requirements of products, the company has started a new endeavour in footwear with their own brand; a new line of “Garsport” **branded footwear** has been launched into the market, with safety and trekking shoes, comfortable and versatile, developed for any kind of use. The quality of our products, which is fundamental to our thinking, represents one of the main principles of Garsport philosophy: continuous research of new materials and the ongoing control of the productive process taking place every day in the production facilities owned by the family.

This ensures excellent quality standards and strong durability instilled into the products, making them tough enough for the most robust of use. A professional and reliable service given by the company to customers, together with an even bigger presence in the market, have brought Garsport to the attention of the main local and international markets, as well as the interest from the most demanding and selective customers, who pay attention to every single detail of the product and are constantly searching for the best compromise between quality and price.

## NOTRE HISTOIRE

Garsport est née en 1972 grâce à Diego Garbuio et Gabriella Favotto, artisans passionnés qui ont décidé de créer une entreprise de production de chaussures pour la neige et pour le froid. Leur grande passion pour la fabrication et la recherche de nouveaux matériaux, l'augmentation de l'expérience acquise dans les différentes phases de fabrication, ont porté **Garsport à diversifier ses modèles, en introduisant des nouvelles lignes de produits de trekking, pour le temps libre et pour la sécurité (safety), et en réalisant ces produits pour des marques très importantes et connues sur le marché international.**

Grace à son design italien, toujours très attentif aux exigences du marché et aux différentes demandes techniques sur les produits, l'entreprise Garsport a commencé la production même avec son propre nom ; voici donc l'introduction des lignes à marque Garsport pour le trekking et la sécurité : confortables, versatiles, étudiées pour des exigences différentes et pour plusieurs usages. La qualité du produit, qui a une importance fondamentale, représente un des principes de base de la philosophie Garsport: la recherche sans cesse de nouveaux matériaux, et le contrôle attentif des processus de production, qui se fait tous les jours dans les installations de production, garantissent une qualité excellente, sécurité et longévité.

Le professionnalisme et le sérieux de l'entreprise dans le service offert aux clients, et la présence sur le marché, ont porté le marché national et international à trouver un intérêt en Garsport. Aussi les consommateurs les plus exigeants et sélectifs qui sont très attentifs aux détails et à la recherche du meilleur compromis, sont très satisfaits de la qualité/prix.

# OUTSOLE

Vibram è un'azienda italiana, leader nella produzione di soles in gomma, in particolare destinate alla montagna. Garsport si affida da anni a Vibram per garantire qualità e soddisfare le esigenze degli amanti della montagna.

*Vibram is an Italian company, leader in the production of rubber soles, in particular for mountain use. Garsport has been relying on Vibram for years to guarantee quality and meet the needs of mountain lovers.*

*Vibram est une société italienne, leader dans le monde entier pour la production de semelles en caoutchouc, notamment pour la montagne. Garsport s'appuie depuis des années sur Vibram pour garantir la qualité et répondre aux besoins des amoureux de la montagne.*

## VIBRAM ART. MULAZ EVO

Paraurti per la protezione del piede e maggiore grip, sottile fondo in gomma per ottimizzare il rapporto leggerezza /durata, mantiene le prestazioni a temperature estremamente basse.

Toe bumper for foot protection and grip, thin rubber bottom to optimize liteness/ durability ratio , maintains performance at extremely low tempetatures.

Pare-Pierre pour la protection et l'adhérence du pied. Fond en caoutchouc mince pour optimiser le rapport légèreté / durabilité. Maintient les performances à des températures extrêmement basses.

## VIBRAM ART. PEPE

Incomparabile grip su superfici bagnate e asciutte, durata nel tempo, ottima adattabilità al suolo.

Unparalleled grip on wet and dry surfaces, rugged longevity, optimal ground adaptability.

Adhérence inégalée sur les surfaces humides et sèches, longévité robuste, adaptabilité au sol optimale.

## VIBRAM ART. FRICTION

Testato sulle vette più alte del mondo, mantiene le prestazioni a temperature estremamente basse, mescola più solida per il massimo supporto e durata.

Tested on the world's highest peaks, maintains performance at extremely low temperatures, firmer compound for maximum support and durability.

Testé sur les plus hauts sommets du monde, maintient les performances à des températures extrêmement basses, composé plus ferme pour un soutien et une durabilité maximale.

## VIBRAM ART. MULAZ

Zona di arrampicata per maggior presa su roccia, testato sulle vette più alte del mondo, mantiene le prestazioni a temperature estremamente basse, mescola più solida per il massimo supporto e durata.

Climbing zone for grip on rock, tested on the world's highest peaks, maintains performance at extremely low temperatures, firmer compound for maximum support and durability.

Zone d'escalade pour une adhérence sur rocher, testé sur les plus hauts sommets du monde, maintient les performances à des températures extrêmement basses, composé plus ferme pour un soutien et une durabilité maximale.

## VIBRAM ART. BARWA

Incomparabile grip su superfici bagnate e asciutte, durata nel tempo, ottima adattabilità al suolo.

Unparalleled grip on wet and dry surfaces, rugged longevity, optimal ground adaptability.

Adhérence inégalée sur les surfaces humides et sèches, longévité robuste, adaptabilité au sol optimale

## VIBRAM ART. FOURÀ

Progettato per attività di cross-sport, formulazione morbida e flessibile, massima aderenza su terreni bagnati e asciutti, design autopulente, linee di flessione per migliorare la rullata del piede.

Engineered for crosssport grip performance, soft and flexible compound formulation, ultimate response on wet and dry terrain, self cleaning open design, flexion lines to improve natural rolling.

Conçu pour des performances d'adhérence crosssport, composant doux et flexible, qualité ultime sur terrain sec et humide, conception ouverte autonettoyante Lignes de flexion pour améliorer le roulement nature.

## VIBRAM ART. SPHIKE

Equilibrio ottimale tra trazione e durata, massima aderenza su terreni imprevedibili, progettato per più stabilità e comfort.

Optimum balance between traction and durability, high response on unpredictable terrain, engineered for stability and comfort.

Équilibre optimal entre traction et durabilité, haute qualité sur terrain imprévisible, conçu pour la stabilité et le confort.

## VIBRAM ART. CURCUMA

Paraurti per la protezione del piede e maggiore grip testato sulle vette più alte del mondo, mantiene le prestazioni a temperature estremamente basse, mescola più solida per il massimo supporto e durata.

Toe bumper for foot protection and grip, tested on the world's highest peaks, maintains performance at extremely low temperatures, firmer compound for maximum support and durability.

Pare-Pierre pour la protection et l'adhérence du pied, testé sur les plus hauts sommets du monde, maintient les performances à des températures extrêmement basses, composé plus ferme pour un soutien et une durabilité maximale.
